EMPLOYEE SOLUTIONS

Employee Solutions

LENGTH OF SERVICE - recognizing milestones is important. Service anniversaries offer a reason for managers and peers to reflect on an employee's contributions over their entire tenure.

SAFETY - preventing accidents while improving production. A safety campaign with clearly stated goals and a rewards system can change work habits as well as achieve compliance.

REFERRALS - aligning the right people to the organization. Employees understand your culture and can help you not only find the best prospective associates, but also customers who will value your offerings.

INNOVATION - rewarding new ideas. The long-term success of all companies is based on innovation to meet changing needs in the marketplace.

EXCELLENT JOB PERFORMANCE - everyone, everywhere, every time. Recognition is best when given regularly and immediately. Highlight individual contributions on an ongoing basis, easily and effectively.

WELLNESS - a healthy path to the bottom line. Offer incentives which reward healthy lifestyles, thus reducing health care costs and absenteeism while improving employee productivity.

PURPOSEFUL WORK - the antidote to apathy. When employees know that they contribute to company success, they are more likely to become motivated to perform at levels that exceed job expectations.

CONTESTS - adding some fun to work. As an incentive trend, contests and games can be a great team-building experience as well as motivate individuals to achieve goals in a fun environment.

PEER-TO-PEER RECOGNITION - placing the power of recognition into their hands. Empowering employees to recognize their peers quickly reinforces positive behaviors.

SPECIAL AWARDS - multiplying the impact. While every recognition moment does not call for a public presentation, a special reward and how it is presented can make all the difference.

SPOT RECOGNITION - giving credit when credit is due. Through our programs for spot recognition, we help you identify and reward positive behavior in a timely fashion.

CUSTOM OPPORTUNITIES - every company has its own set of goals and challenges. We have the expertise and services to create a custom solution that works for you.
